29 May 2026

Dear Hiring Manager,

Hi, I am Greta. I hope you are well. I'm originally from Lithuania and moved here at a young age and grew up in Portlaoise, where I stayed until I attended SETU in Carlow.

I have always had an interest in the construction industry and the knowledge of how everything around me is built. Since entering my career and working at MCOH Architects in Portlaoise, I found myself drawn to FSC and DAC work and started attending college to gain insight in that field.

I have become very interested in fire safety and how it is essential in our day-to-day life, and I am currently trying to pursue a career in fire safety with the help of my knowledge in architectural design.

What has genuinely interested me about this company is how connected and nationwide it is. I believe that this approach is what I am looking for — connectivity and spreading knowledge through multiple disciplines.

Thank you for your time, and I hope to work with you in the future.

Yours sincerely,

Greta Darguzyte

PROFILE

Architectural Technologist with over three years' experience delivering building projects to current Irish building regulations. Completing a Fire Engineering degree (graduating Aug/Sept 2026) and specialising in fire safety compliance — preparing Fire Safety Certificate (FSC) and Disability Access Certificate (DAC) applications. Strong in technical drawing, tender documentation and consultant co-ordination.

EXPERIENCE

Architectural Technologist

May 2023 – Present

MCOH Architects, Portlaoise

- Prepare and compile Fire Safety Certificate (FSC) and Disability Access Certificate (DAC) applications to current building regulations — current area of specialisation.
- Produce detailed technical drawings, supporting projects from concept to construction.
- Develop tender sets and supporting documentation for project procurement.
- Co-ordinate with engineers and consultants to resolve design and compliance issues.

Customer Service · Traffic Management

Oct 2021 – Apr 2023

G4S, Kildare Village

- Assisted visitors with security queries and complaints; worked within a large team alongside management and the public.
